ABOUT Company

At RC Corner Trading LLC, we take pride in being at the forefront of agricultural drone technology. With a passion for driving positive change in farming practices, we offer a comprehensive range of DJI Agriculture Drones, renowned for their reliability, precision, and efficiency. Our team of experts is dedicated to empowering farmers with the tools they need to optimize crop management, enhance yields, and promote sustainable agriculture.

RC Corner Trading LLC was established in 2008 with the aim of becoming a top drone dealer for the agriculture, industrial, commercial, and construction industries. We have partnered with major countries in Africa such as **Kenya, Tanzania, Morocco, Nigeria** and **Cote d'Ivoire**, and in Middle East such as **Oman, Saudi Arabia**, and **Qatar** to expand our reach and ensure that we provide quality services to our clients.

Our Partners from Africa and
Middle East.

RC Corner Trading LLC

Welcome Message

Welcome to RC Corner Trading LLC, your premier destination for cutting-edge agricultural drone solutions in the Middle East and Africa. At RC Corner, we're more than just a drone dealer - we're your dedicated partner in harnessing the power of technology to revolutionize farming practices and drive sustainable growth.

Whether you're a smallholder farmer or a large-scale agricultural enterprise, we're here to provide the tools, support, and expertise you need to thrive in today's dynamic agricultural landscape. .

Together, let us embark on a journey of transformation and growth. Let us push the boundaries of what's possible, fueled by a shared vision of innovation and progress. At RC Corner, your success is our success, and we spare no effort in ensuring that together, we soar to new heights of achievement and prosperity.

Sincerely,
Michael Dai (CEO)

What We Do?

RC Corner Trading LLC

Why DJI Agriculture Drones?

Agriculture drones represent a significant advancement over traditional farming methods, offering advantages in

Precision and Efficiency

Cost-effectiveness

Time Saving

Environment sustainability

**Enhanced Data Collection
and Analysis**

Improved Safety

.By adopting drone technology, farmers can enhance productivity, reduce environmental impact, and ensure long-term viability. In an era of increasing demand for food, agriculture drones are poised to play a crucial role in the future of farming.

Cotton Farming with DJI Agriculture Drone

Drone Application in Banana Cultivation

Revolutionizing Weed Spraying in Pastures

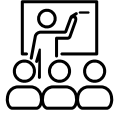

Gain More Crops, reduces operation cost

RC Corner Trading LLC

What We Do?

Training and Education:

dji ACADEMY

As a certified DJI partner, we provide exclusive entry to DJI Academy's drone training programs for agriculture. We are the **sole DJI Agriculture training institution** in the Middle East and Africa Regions.

Instructors

Our **certified instructors** provide hands-on training sessions tailored to your skill level and operational requirements, covering topics such as flight techniques, data analysis, and safety protocols.

Students

Over 100 students from the Middle East and Africa regions have received training. Our programs serve both beginners and seasoned drone users, equipping them with the expertise to enhance drone utilization through online and offline platforms.

Certification

Upon finishing both the theory and practical exams at DJI Academy, you will receive a **Pilot Certificate**.

What We Do?

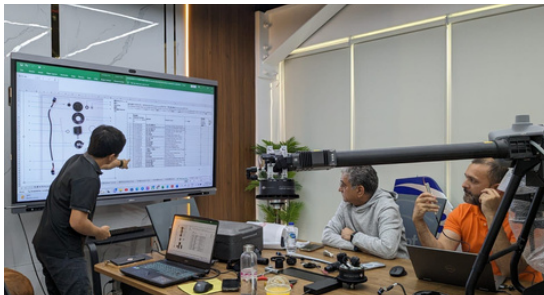

RC Corner Trading LLC

Maintenance and Repairs:

We provide maintenance and repair services for DJI Agriculture Drones to ensure optimal performance. Skilled technicians diagnose and **resolve issues promptly**, reducing downtime and enhancing uptime for drone operations. Trust us for routine upkeep and emergency repairs.

Our Products

DJI Agriculture Drones

DJI Agras T50

- Spray load - 50kg
- Spread Tank - 75 L
- Flow rate - 16L / min

DJI Agras T40

- Spray load - 40kg
- Spread load - 50kg (70L)
- Flow Rate - 6L/min

DJI Agras T30

- Spray Load - 30kg
- 16-nozzle layout to improve droplet penetration
- Flow rate - 8 L/ min

DJI Agras T25

- Spray Load - up to 20kg
- Spread Load - up to 25kg
- Flow Rate - 6 L/ min

DJI Agras T20P

- Spray Load - up to 20kg
- Spread Load - up to 35kg
- Flow Rate - 6 L/ min

DJI Agras T10

- Spray Load - 8kg
- Spreading width - 7m
- Flow Rate - 2.4 L/ min

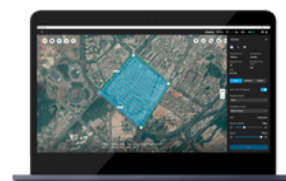

Drone for Mapping

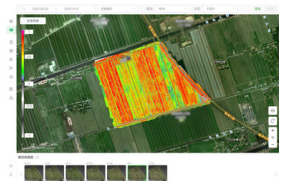

DJI Mavic 3 Multispectral

- Multispectral camera to scan and analyze crop growth
- surveying - up to 200 hectares / flight
- Centimeter-level positioning with RTK Module
